BRING SMART TO YOUR LIFE

" Protect your parking space from illegal parkers "

Parking lock

JSPJ11111

Parking locks are widely used in various kinds of parking lots, on-street/off-street parking management, positioning in smart community and smart shopping centers. They can achieve the main features which are two-way anti-collision, intelligent rising/falling, waterproof & dustproof, etc. by ground mounting, to prevent the parking space from being illegal uses.

Long Distance Remote Control

- Distance up to 20m

High Pressure Resistance

- Resistance up to 3 tons

Two-way Anti-collision

- **180°anti-collision** with built-in alarm system

Low Battery Warning & Automatic Alarming

- **Automatic alarming** for unauthorized operation or exterior force trying to put the arm down

Quiet Operation

All-weather Protection

- Waterproof, dustproof, high/low temperature resistant design

* The LPR rate may be different in different countries and areas. The details you shall confirm with the sales.

Specifications

Product Name	Parking lock
Model Name	JSPJ11111
Communication Interface	Bluetooth 4.2/Remote control
Power Supply	DC 7.4V
Accumulator	7.4V 26AH
Installation Type	Ground mounting
Remote Control Distance	≥20m
Arm rising time / falling time	≤5s
Arm Width	460mm
Altitude after rising	400mm
Battery Life	12 months
Weight	8.5kg
Working Temperature	-10℃–70℃
Working Humidity	≤95% Non-condensing (at room temperature)
IP Rating	IP67
Working Frequency	2.4GHz
Dimensions (L*W*H)	340×390×460mm
