JSPJ1195A

" Helping You Find Your Car More Easily "

Car Finding Kiosk

Car Finding Kiosk is mainly used to search the vehicle location when the car owner leaves the parking lot. The system provides a variety of car search methods. In addition, it can also provide a variety of customized functions such as online payment, monthly card renewal, and advertisement push.

Multiple Car Search Algorithms

- The system has integrated a variety of car search algorithms, such as parking space number query, license plate number query, unlicensed car query and admission time query.

One-stop Service Station

- In addition to the car search function, it also integrates multiple applications such as online payment, advertisement push, monthly card management, real-time viewing of parking lot information and business activity information.

Vibrant IPS Display

- The 32-inch IPS display can better display the original colors, and with a 1080p resolution, the service interface is more friendly.

More Energy Efficient Design

- The system intelligently detects whether someone is operating the interface through the AI algorithm, and will enter a low-power state when it is not used for a long time, so that the energy consumption of the product is lower.

Video Intercom & Voice Prompts

- In order to give customers the best experience, the product has added intelligent voice prompts, and customers can operate step by step according to the prompts. When encountering problems, customers can also ask for help through video intercom.

Specifications

Model Name	JSPJ1195A-T	JSPJ1195A
Installation Type	Table Type	Wall Type
Power Supply	AC220V/110V	
Working Current	＜2.5A	
Working Temperature	0～55℃	
Working Humidity	≤95% No condensation（at normal temperature）	
Storage Temperature	-30～75℃	
Working Environment	Indoor	
Communication Interface	TCP/IP	
Screen Size	32 inch	
Touch Screen Type	Capacitive	
Touch Points	10 points	
Operating System	Linux	
Processor	Hisilicon 3536	
Voice Intercom	Support	
Video Intercom	Support	
Capture Records	Support	
Video Ads	Support	
Ads Format	MP4	
Interfaces	1 Gigabit Ethernet Port	
	1 Power Interface	
	1 USB interface	
Data Storage	Solid State Disk	
Storage Capacity	250G	
Design Life	10,000 hours	
Cabinet Material	Metal + Perspex	
Weight（kg）	22	20
（L*W*H）	758.7mm*432.8mm*1118.5mm	782.7mm*80.5mm*477.3mm
