

## DS1071

# Entry Standard monitor

#### System specifications

Power over Ethernet (PoE)	Yes - IEEE 802.3af class 0	
Ethernet bandwidth requirement	1Mb/s multicast per panel during call	
Monitors per system	≤1000	
TCP/IP Ethernet extension limit	100m/328ft	
Cable type	CAT5	
Current consumption	2.6 W (Average) 3.2 W (Max)	
Hardware features		
Audio system	Full Duplex	
Screen	Colour LED , capacitive Touch screen	

	Audio system	Full Duplex
	Screen	Colour LED , capacitive Touch screen
	Screen size	4.3",16:9
	Screen resolution	480 x 272
	Door bell input	2 wire, 8v illumination supported
	LED status indicator	RGB LED
		Answer call - Green
		Open door- Flashing Green
		Doorbell - Blue
		Missed calls & Messages - Red
	Back lighting colour	White
	Action buttons	Yes
Sounder beacon relay		Yes, 2A
	Line out for T-loop antenna	Yes, 2A a a a a a a a a a a a a a a a a a a
	Software features	
		Yes <sup>0</sup>
	Do Not Disturb function	Yes
	Call snapshot	Yes
	Built in help menu	Yes O O O O O O O
	'View video' mode	
	Concierge compatible	Yes
	Environmont	

### Environment

Operating Temperature	-0°C - +49°C +32°F - +120°F
Moisture resistance	No
Vandal Resistance	Low
Surface mount	Yes
Backbox compatibility	UK, Euro, USA
Accessories	

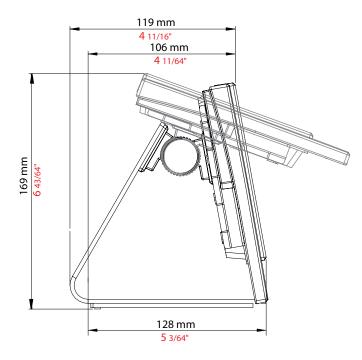

Desktop stand

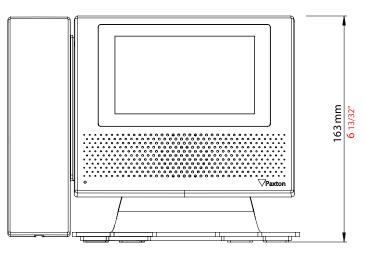

Optional

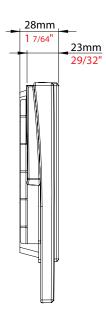

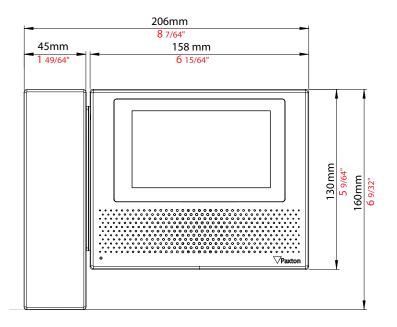

Entry is a door entry system that works standalone or alongside either of Paxton's access control systems, Net2 or Paxton10. Combining door entry with the key features of Net2 and Paxton10. Entry consists of 3 components that auto-detect on set up; external panel, interior monitor and door control unit. Entry is a plug and play solution that comes with a range of panel and monitor options and is suitable for a wide variety of sites.

The 2nd generation Entry Standard monitor comes either with or without a handset, and can be wall or desk mounted. Entry components simply interconnect using Cat5 or standard RJ45 terminated patch cables. Entry can also utilise existing network infrastructure for simple installation. PoE technology runs power and data along the same cable to avoid the need for separate power supplies. A visitor initiates a video call via the bell button on the external panel. Visitor access can be granted via the Entry Standard monitor, which features an intuitive capacitive touchscreen user interface.
